PROFILE SUMMARY

As a Mathematics major with an IT minor focused on Web, UI/UX & Graphic Design, I bring a blend of analytical problem-solving and creative design skills to every project. My academic background has honed my ability to approach design challenges with precision, structure, and innovation.

EDUCATION

Minor in Information Technology | DEREE – AMERICAN COLLEGE OF GREECE
September 2021 – December 2024
Significant Courses
- Human Computer Interaction
- Digital Tools for GD and Production
- Designing for the Web
- Time Based Multimedia

Significant Projects
- A better Google Keep (Usable Interaction Design Development)
- Street Burger (Logo, Food-Tray Leaflet & Menu design)
- EmptyShelf (Website design)
- Design a Logo with Me (Video shooting & editing, Logo design)

Degree in Mathematics | NATIONAL AND KAPODISTRIAN UNIVERSITY OF ATHENS
September 2020 – 2025 (Expected)

WORK EXPERIENCE

Monitored Examination Sessions
September 2021 – May 2024
Monitored examination sessions to uphold academic integrity, enforce testing policies, and maintain a secure, distraction-free environment.

Freelancing as a Graphic Designer
Designed a variety of:
- Professional business cards
- Social media posts for @noelias_books
- Visual identity elements

SIGNIFICANT PROJECTS

- **A BETTER GOOGLE KEEP:** Developing an improved experience for Google Keep (System Concept Statement, Contextual Inquiry & Analysis, Requirements & Modeling, Design & Mock-up prototype)
- **STREET BURGER:** Logo, Food-Tray Leaflet and Menu design for a fast-food chain called "Street Burger"
- **EMPTYSHELF:** Complete website design using Webflow. "EmptyShelf" is a website for reading book reviews and more
- **DESIGN A LOGO WITH ME:** Video editing project, shot and edited by myself where I describe my logo design procedure for a local coffee shop
- **POUALEPOU:** A project about creating the visual identity for an upcoming tech related website called "pouAlepou"
